Three classes

to choose from

Women Only

Feb. 21 – One-night, 6 – 8pm – \$20

Emphasis on flat tire repair and comfort enhancing adjustments.

This one night class is, as the name implies, for ladies only. We will concentrate on flat tire repair and adjustments to make your bike more comfortable. Upon completion of the class, your rides will be more enjoyable and the thought of a flat tire will be less intimidating. Bring your bike and any repair items you carry with you.

General Maintenance

**Feb. 8, 15 Massillon & New Philadelphia & Feb. 9, 16 North Canton
2-night, 6 – 8pm – \$30**

Covering flat tire repair, gear, brake adjustment, wheel truing, and more.

Our standard maintenance classes consists of four hours of instruction split up over two sessions. This hands on clinic will cover tire repair, wheel truing, bearing, gear, and brake adjustments. As time allows, we will cover any specific issues that attendees may have. Bring your bike and any repair items you carry with you.

Advanced

Feb. 25 – One-day (6 hours) – \$75

Intensified class for those who want to dive further into a bicycle's inner workings.

Includes lunch! Limited to four students.

Participants should bring their bikes - these are very hands-on classes!

Additional classes added as needed!

This class is for the person that has a basic knowledge of bike repair but thirsts for more. We will go where none of our maintenance classes have gone before. Like our other offerings, this will be a VERY hands-on experience. You will be working on your own bike so you will become even more familiar with the equipment you are using.

Class is limited to 4 people and will be offered at each of our stores on Sat. Feb. 25. Plan to make a day of it. We will start at 9am, take an hour break for lunch (included) and finish up at 4pm. Upon completion you will have a PhD (Pedals, Hubs, Derailleur) degree and be presented with an Ernie's Bicycle Shop job application!

All classes must be paid in full,
in advance to hold your spot.
